TEBM 700 A

List of special offers:

- Landing gear actuator replacement p.5

List of available retrofits:

- Low LDG Door p.6
- LED taxi LDG lights p.7
- Aerox Chemical Mask p.8
- Barometric Valve installation 31,000 ft p.9
- Engine draining in exhaust stub p.10
- Modification of the oil drain breather hose p.11
- MC10 Oxygen mask with SmartMike p.12

TEBM 700 A

- Strobe and navigation light updates p.13
- LED Ice detection light p.14
- Voice Alert Device P.15

LANDING GEAR ACTUATOR

The overhaul of your actuator is due ?

For a comparable price, replace it with a brand new unit with an extended 2 year warranty !

P/N to order 7897340001

New offer

\$12,800 each

2 year warranty

Subject to 4 months pre-order

Core return

Vs

Overhaul (7 to 10 y.)

\$11,637 each

**+ over & above
\$1,000 to \$4,000**

3 months warranty

Benefit from all latest improvement in the product such as:

- More durable locking cage material
- Pressure activated limit switches
- Improved water tightness
- Re-inforced forged bodies

Avoid burden of additional costs and upgrade

- 30 actuators in stock at launch
- Availability will highly depend on forecast

Purchase includes:

- EASA Dual release
- 2 years warranty
- 10 years to the first overhaul

Available for all the TBM with actuator referenced:

- VSTS081480 / T700A323005000000
- VSTS082315 / T700A323005300000
- VSTS083550 / 7897340002
- VSTS083560 / 7897340001

Low landing gear door retrofit

Enjoy the latest enhancement for your TBM

Low LDG Door

Improves aerodynamics of the aircraft

Reduce drag

Better performances and Fuel saving

The Main Gear Low Door is made of honeycomb composite panel with glass/carbon-cloth

MC10 SmartMike® retrofit

Benefit from the latest enhancement for your TBM

A new mask with SmartMike®

For your TBM, it's time for the latest oxygen mask upgrade!

Advantages of the MC10 with SmartMike®

- Improved communications clarity with air traffic control (no more "Darth Vader" breathing sounds)
- Enhanced communications efficiency, including noise reduction function
- Better comfort and lower fatigue
- Less anxiety during situations of stress

Validity

S/N 1 to S/N 243 with option
OPT70-35-001 (gaseous oxygen)
& S/N 244 to S/N 433

Chemical toilet cabinet option

Enjoy the latest enhancement for your TBM

Chemical toilet cabinet

This option consists of swapping-out the TBM's intermediate left seat with the toilet cabinet.

This system is used in the marine industry and is optimized for easy installation and servicing.

On ground, the toilet cabinet can be installed to replace the left middle seat.

In flight, the passengers will have a curtain to ensure privacy.

The kit includes the toilet, curtain and the POH option supplement.

Pilot door handle retrofit

Enjoy the latest enhancement for your TBM

Pilot door pushbutton and handle replacement

Is your TBM aircraft giving you “the cold shoulder?”

A new pilot door handle and pushbutton built with carbon composite materials are now available for retrofit on TBM aircraft.

It does not radiate the same sensation of cold as a metallic door handle.

The result: increased comfort during flight, and reduced heat loss.

Validity

Up to SN 1269
equipped with pilot door

Chemical toilet cabinet option

Enjoy the latest enhancement for your TBM

Chemical toilet cabinet

This option consists of swapping-out the TBM's intermediate left seat with the toilet cabinet.

This system is used in the marine industry and is optimized for easy installation and servicing.

On ground, the toilet cabinet can be installed to replace the left middle seat.

In flight, the passengers will have a curtain to ensure privacy.

The kit includes the toilet, curtain and the POH option supplement.

Validity

TBM 700B equipped with MOD70-035-001 (Gaseous Oxygen), TBM700C, TBM 850.

Benefit from the latest enhancement for your TBM

A new mask with SmartMike®

We're all wearing masks to go outside these days. For your TBM, it's time for the latest oxygen mask upgrade!

Advantages of the MC10 with SmartMike®

- Improved communications clarity with air traffic control (no more "Darth Vader" breathing sounds)
- Enhanced communications efficiency, including noise reduction function
- Better comfort and lower fatigue
- Less anxiety during situations of stress

Validity

S/N 434 to S/N1215 equipped with MC10 P/N: 10-02-121

Reference

SL70-060-35

Applicable Not applicable Already applied

Order reference number

MC10-02-123 - Qty 2

LED ice detection light

Benefit from the latest enhancement for your TBM

Ice detection light assembly

For visual detection of wing leading edge ice formation, the latest LED technology is provided in an all-inclusive replacement package.

Advantages of the upgrade include long life, high efficiency, limited wear and tear, better resistance, and a higher white color temperature.

Validity

From S/N 1 to 1157

- Pilot door handle p.78
- MC10 SmartMike® p.79
- Seatbelt-integrated airbag p.80

LANDING GEAR ACTUATOR

The overhaul of your actuator is due ?
For a comparable price, replace it with a brand new unit with an extended 2 year warranty !

P/N to order 7897340001

New offer

\$12,800 each

2 year warranty

Subject to 4 months pre-order

Core return

Vs

Overhaul (7 to 10 y.)

\$11,637 each

**+ over & above
\$1,000 to \$4,000**

3 months warranty

Benefit from all latest improvement in the product such as:

- More durable locking cage material
- Pressure activated limit switches
- Improved water tightness
- Re-inforced forged bodies

Avoid burden of additional costs and upgrade

- 30 actuators in stock at launch
- Availability will highly depend on forecast

Purchase includes:

- EASA Dual release
- 2 years warranty
- 10 years to the first overhaul

Available for all the TBM with actuator referenced:

- VSTS081480 / T700A323005000000
- VSTS082315 / T700A323005300000
- VSTS083550 / 7897340002
- VSTS083560 / 7897340001

Privacy compartment chemical toilet electric self-deployment door

Enjoy the latest enhancement for your TBM

Privacy compartment kit

Complete chemical lavatory compartment including a unique foldable and rigid privacy wall.

Installed by using only 4 screws and a «plug and play» electrical connection type.

The kit also contains:

- a custom made carpet
- leather covered surface will match your interiors
- all the technical documentation

Validity

All Elite TBM Models
From SN 609 *

Pilot door handle retrofit

Enjoy the latest enhancement for your TBM

Pilot door pushbutton and handle replacement

Is your TBM aircraft giving you “the cold shoulder?”

A new pilot door handle and pushbutton built with carbon composite materials are now available for retrofit on TBM aircraft.

It does not radiate the same sensation of cold as a metallic door handle.

The result: increased comfort during flight, and reduced heat loss.

Validity

Up to SN 1269
equipped with pilot door

Cockpit Pilot Data Link Communication (for U.S. airspace operations only)

Benefit from the latest enhancement available for your TBM

CPDLC installation kit

The CPDLC's functionality consists of written messages related to flight operations clearances.

It reduces voice radio-frequency congestion and eliminates potential human error in the form of pilot or controller voice misreads.

This helps reduce pilot workload and improves flight safety.

A COM3 functionality is also coming with this upgrade.

NOTE: This installation is for CPDLC communications only in U.S. airspace
